Nanorobot Invention and
Linux: The Open
Technology Factor - An
Open Letter to UNO
General Secretary

,----[Quote]
| Abstract: This is an open
letter, which
| discloses an outline on
the current status of
| nanorobotic cutting edge

technology trends in
| software development, bioinformatics,
| proteomics, nanotechnology, and manufacturing
| integration. It provides a layman's description

| of a practical platform to effectively boost the
| development of nanobiotechnology, and to
| manufacture nanorobot hardware architecture for
| medical defense that will benefit humankind. The
| core description of the present initiative is
| based on Linux strategies. The basis and key
| advantages of such an approach are clearly
| described next. Nanotechnology should be used
| for peaceful purposes based on ethical practices
| to provide a human heritage. The nanorobot
| invention has an impact on current history and
| provides a legacy for coming generations.
