Nanorobot Invention and Linux: The Open Technology Factor - An Open Letter to ...

...

From www.nanotech-now.com:

...

Introduction
Linus Torvalds has shown how people can come together in a practical way, to boost technological development of innovative operational systems with a high processing performance and several multi-packaged modular architecture integration. This accomplishment was achieved as a result of a key open source technology platform mentality. Software in our offices, laboratories, and industry not only provides enjoyment, using You-Tube and connecting people world-wide through access to Facebook, Skype or Orkut, it allows work office automation, and it can also provide the methods to manufacture and integrate new machines of different sizes, shapes and utilities. The last century has changed the face of our planet with inventions never thought possible before: from controlled heavier-than-air flight, and antibiotic medical treatment, to electronics, our ...
